PROPOSED AGENDA FOR TELEPHONE INTERVIEW

Dear Sir:

The Examiner maintains various rejections to all of my claims. Most of these rejections are based on combinations of prior art rejections on the basis of obviousness. Even with obviousness rejections, however, *each and every element of a claim must be found somewhere in*

the references selected for combination. I have carefully and thoroughly reviewed the prior art cited against my application numerous times. I am simply unable to find any mention of certain critical features. For example, none of the prior art cited suggests or even hints at the automatic setting of user preferences for customizable vehicle components based on the position of the user with respect to the vehicle. If this feature is not found in any of the references, I simply do not see how my claims could be obvious over ANY combination of the references cited.

Before I file an appeal, I would like to discuss the cited references with the Examiner. Although I believe that my claims are patentable as currently written, I would be open to discuss any suggested amendments which may serve to further distinguish my claims from the cited art.

Please contact me to schedule a time for the telephone interview. I can be reached during business hours at 212-277-6616 or anytime on my cell phone at 516-816-1571.

Thank you. I look forward to our conversation.

Dated: June 7, 2006

Respectfully submitted,

By _____
